Evan, I appears to me that the information in the slides comes from documents that would be consider public information under FOIA.  
I suggest that you use that as a test in terms of pre-permit deliberative (not public) versus information submitted as part of the application (public).

**Subject:** Slides to share with state?

Hi All,

Thank you for attending the meeting this morning with Idaho State Agencies. Multiple requests were made by external attendees for copies of the slides that were shared in the meeting. Since these were developed from material that was either submitted by the applicant, or straight from our regulations, I don't see any issue with this.

I've attached a PDF version exactly matching the slides that were presented. Please reply-all to this email by next Wednesday, 5/26, if you see any issue with delivering the slides. No response needed otherwise.

Thanks,

**Evan Osborne** | U.S. EPA Region 10 |  
Ground Water & Drinking Water Section
